

Assistive Listening

Whether in a theater, a house of worship or at a sporting event, individuals want to experience every word, every moment. That's what they come for, and they deserve to participate by hearing every sound. Although most people can suffice with a standard sound system, there are inevitably several in every gathering who could use a little help, or who want an enhanced auditory experience. Listen's products are designed to provide an easy to use and convenient wireless sound solution for your patrons who want to make sure they don't miss a single sound.

Don't miss a single sound. **Listen**[®]
